

# WATERJET

WITH SAFE SHUTDOWN VALVE

## FEATURES

- Substantial Reduction in water consumption
  - 210 L / min using the Waterjet versus 318 L / min using a 1" Hose
- Marked increase in Recovery Grades
- Unrivalled belt cleaning solutions
  - Cleaning can be done whilst belt is in operation
- Plant cleaning
- 3 1/2 Hours to clear a typical 30m face
- Sweepings 100% up to standard
- Safer mining
  - All cleaning achieved without entering a red zone
- On-site service and maintenance

## SPECIFICATIONS

Capacity	205L/min @ 823 rpm+-
Operating Pressure	6 Mpa
Pump	6 Cylinder positive displacement plunger pump
Drive Motor	37 kw, 3 pole, 50hz, Ip55, 3-phase, cast iron or fabricated B3 foot mounted motor
Dimensions	
Length	1426 mm
Width	926 mm
Height	630 mm
Weight	860 kg
Jetting gun	DA Jetting gun fitted with safety shutdown valve
Gun reaction force	
In Jetting Mode	421 newton (43 kg) effective up to 12m from nozzle
In Sweeping Mode	147 newton (15 kg)
